**Tooling:** Git (GitLab, GitHub), Docker, Nginx, Bash

**Operating Systems:** Linux (Debian, Ubuntu), Windows, macOS

**DevOps:** Amazon Web Services (EC2, RDS), Heroku

**Methodologies:** Agile, Kanban, Scrum, Waterfall, OOP, Functional Programming, Test-driven development

## WORK EXPERIENCE

### Junior Software Developer

AppSquire Consulting Ltd.

May 2022 — July 2022

Edmonton, Alberta, CA

- Fixed and/or redesigned over 10 android activities to match front-end design specifications.
- Designed, developed, and documented an Android app and a web page to manage users.
- Built a RESTful API with a SQL server to serve data for the Android app and the web page.
- Implemented new features and/or required changes received through peer code reviews.
- Contributed to the development and maintenance of various project-related tasks.
- Participated in scrums, stand-ups, and sprint meetings to manage requirements and product development.

### Software Developer

Self-employed

August 2019 — November 2021

Agadir, Souss-Massa, MA

- **[corspat.onrender.com](https://corspat.onrender.com):** Built a responsive website with features allowing users to create a path of learning, keep track of the time spent studying online, and have a bird's-eye view of their study journey.
- **[mehdimaimoun.com](https://mehdimaimoun.com):** Built the brand and website for a local singer, allowing visitors to discover his talent.
- **[laby](https://laby.dev):** Programmed a Discord bot that executes IRC-like commands to retrieve and display information from API endpoints to users. (e.g.: weather, IMDb, translate, ping, etc...).

## EDUCATION
